

# A powerful upstream viral safety solution

**Bioreactor contaminations  
are highly disruptive and  
costly events.**

Viresolve® Barrier filters are the last line of defense against bioreactor contamination. These filters minimize risk to make your work more secure and:

- Protect bioreactors from viral, mycoplasma and bacterial contamination
- Enable scalable, high flux virus filtration of cell culture media
- Maintain cell culture performance

Viresolve® Barrier filters are part of the Mobius® library.
