

Automatic Sanitization Module (A.S.M.)

(Cat. No. TANKASMUV)

General Description

The A.S.M. UV unit installs into the top of MilliporeSigma S.D.S. 200 and 350 liter storage tanks. The 254 nanometer UV lamp extends into the top of the tank to prevent the proliferation of bacteria and formation of biofilm on the inner surfaces of the storage tank. The A.S.M. is controlled automatically by MilliporeSigma $RiOs^{TM}$ and $Elix^{\otimes}$ water purification systems.

Installation requirements

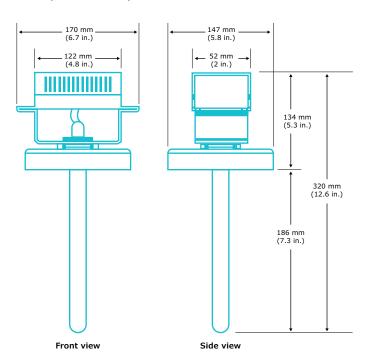

The A.S.M. installs directly into the cover of the S.D.S. 200 and S.D.S. 350 tanks

Allow an additional 250 mm (9.8 in.) above S.D.S. for the installation and replacement of the UV lamp

Electrical specifications

The A.S.M is operated and controlled directly by MilliporeSigma RiOs $^{\text{TM}}$ and Elix $^{\text{B}}$ water purification systems. No mains power required.

Length of cable for connection to the RiOs $^{\text{TM}}$ or Elix $^{\!\!@}$ system: 5 m (16.4 ft.)
